We failed miserably in this Primary election. As environmental activists, we had a HUGE opportunity to make a difference and show our wonderful endorsed candidates, that with our support, they could win with substantial margins. When there is only a 20% turnout, we should be able to show our power, but we sat on our hands and did very little to Get Out The Vote from those who support the environment. If we don’t do a whole lot better for November, we could easily see us giving back everything that we have accomplished in the last eight years.

Our Congressional delegation of environmental supporters struggled much more than expected. Norma Torres and Raul Ruiz won easily and should have no trouble in the fall. However, Pete Aguilar, who we expected to win easily, finished in a virtual dead heat with Sean Flynn, and Mark Takano only polled 57%. Newcomer, Marge Doyle, finished with only 20% against what should have been a vulnerable incumbent Paul Cook in the 8th Congressional District (the High Desert). Still, if we put everything we’ve got into this race in November, we could pull off a huge upset. We’ll need to get boots on the ground both here in our Chapter and in the Range of Light Group (Inyo and Mono Counties) in the Toiyabe Chapter.

For the State Senate, our 100 perceter, Connie Leyva, won over Mathew Munson 45% to 37%. We should show her more love in...

CALENDAR SUBMISSIONS

DEADLINE: Items for the September/ October 2018 Calendar are due by August 1, 2018.

FORMAT items like those below. Send items electronically if possible.

OUTINGS: Send outings write-ups to your group or section Outings Chair.

MEETINGS & other events: Send electronically to Ladd Seekins at ladd.g.seekins@gmail.com

GENERAL INFORMATION/RULES/ DISCLAIMERS: All Outings Leaders are Chapter Certified Leaders having appropriate Outings Training Courses. First Aid Courses, and experience for the Outings they lead. Leaders may exclude individuals from participation if they believe they might not be qualified. Non-Sierra Club members may join outings unless otherwise stated in the write-up or approved by the Leader’s rules. Participants should CALL THE LEADER BEFORE SIGN-UP. Many Outings specify items to be carried by each participant. Do not attend Outings without the specified items unless you have first discussed it with the leader. Often the TEN ESSENTIALS are required. They are: 1) Map 2) Compass 3) Flashlight 4) Knife 5) Windproof/waterproof matches in waterproof case 6) Fire starter 7) First aid kit 8) Extra food and water for emergency use only 9) Extra clothing including rainwear 10) Sun protection including sunscreen/sunglasses. Carpooling is encouraged, but solely the responsibility of individual participants. The Sierra Club and its leaders may facilitate carpooling, however they will not assign. Drivers should have adequate insurance coverage and their vehicle should have no safety defects. For Sierra Club facilitated carpooling, drivers agree to not consume any alcoholic beverages.It is customary for riders to share expenses with the driver. The above information applies to Sierra Club Outings and Activities only. Non-Sierra Club activities may be listed in a separate location as a courtesy. Please read to understand that accompanies these activities.

**ADVENTURE PASS SPECIAL NOTICE:** Outings occurring in the San Bernardino, Angeles, Cleveland, or Los Padres National Forests may require a Forest Service “Adventure Pass” for each vehicle. The Forest Service designates where the passes are required. Generally, areas that have developed parking and may include toilet facilities, interpretive signs and trash cans requires passes and unimproved areas do not require passes. Outings that require passes usually will be preceded by ** in the listings that follow and/or the leader may indicate the need for Adventure Passes. While leaders try to provide accurate information, ultimately it is the vehicle’s driver that assumes responsibility to adhere to all rules, regulations, and laws - not the Sierra Club. The permits cost $30 per year or $5 per day; however, they may not be obtainable the day of your outing. As a passenger, you are expected to share some of the cost of the daily passes along with a mileage contribution along with the others in the vehicle. Golden Eagle Passports and Golden Age Passports may be used in lieu or the Adventure Pass.

CARPOOLING POLICY: - In the interests of facilitating some outings, it is customary that participants make their own carpooling arrangements. The Sierra Club assumes no liability for carpooling arrangements. Carpooling, ride sharing, or anything similar is strictly a private arrangement among the participants. Participants assume the risks associated with this travel.

LIABILITY WAIVER: - To participate on one of the Sierra Club’s outings, you will need to sign a liability waiver. If you would like to receive a copy of the waiver prior to the outing, please visit the San Gorgonio Chapter website at sango.org and click on Disclaimers under the Outings tab.

**JUN 30 (SAT) 8:00 AM JOHNS MEADOW HIKE**

 Catching the wildflowers can be a challenge, but usually the end of June we find them in abundance at Forse Creek. This is an approximately 7-mile, round trip hike in the San Gorgonio Wilderness. Hikers walk through a forest of Pine, Fir and Oaks, cross a couple of small springs where water is coming out on the trail, have some great views and hopefully lots of those wildflowers! We will cross Forse Creek and have our snack/lunch at Johns Meadow before returning on the trail back to our vehicles. RATED: Moderate with about 800 ft. of elevation gain. MEET: At the Forse Creek trail head off Hwy 38 and Jenske Lake Rd. west. BRING: 10 essentials, 2 liters of water, snack/lunch, sun protection, hiking boots, trekking poles and camera. CHAPTER
along with Center for Biological Diversity and Audubon Society in opposing the project. In the final agreement, the developers agreed to stay out of the more critically sensitive environmental areas and reduce the number of housing units to be constructed. Bryan’s background and expertise in GIS and mapping helped to illustrate the areas where the project was to be developed.

Bryan also represented the Mojave Group in chapter litigation against the Jupiter Project, a big warehouse project in Apple Valley. He prepared his chapter litigation with an attorney and others who had challenged a similar project. In the settlement, it was agreed that the builders would contribute money to conserve desert lands with $60,000 initially set aside for this purpose.

It was determined that $45,000 would go to the Mojave Desert Land Trust and $15,000 would go to Transition Habitat for the purpose of purchasing desert lands to be preserved. And later additional monies were given to these two Conservancies. They also agreed to several environmental improvements including solar and electrical powered warehouse equipment.

Bryan has picked up the work on the WEMO OHV Routes issue that continues to drag on as well and the High Desert Corridor (proposed truck route between Palmdale and Apple Valley). He also is providing leadership in the Group’s efforts to engage fully in the political arena of Victor Valley. The demographic of that area are changing rapidly giving the Club new opportunities to elect the right decision makers.

Bryan also attends the Chapter Conservation Committee monthly conference calls and gives his thoughts on different issues – especially those that impact the Mojave Group. The San Gorgonio Chapter is very fortunate to have Bryan actively working on behalf of the environment.

**Marjorie & Clark Jones Service Award: Steve Farrell**

Steve Farrell, recipient of the Marjorie and Clark Jones Service Award is well-known for environmental activism in the Sierra Club since the early 2000s, and in 2009 was awarded the San Gorgonio Chapter’s Joe Mornmyer Conservation Award. But Steve has spent considerable time and energy with all facets of the Sierra Club including leading outings. Like most Sierra Club volunteers, his formal training provided little clue to a future in the environmental arena and was basically in computer science and math fields. But around 2000, after moving to a 1929 cabin in Crestline, Steve found himself involved with local environmental issues and pursued an interest in water issues which has led to him serving the last two years as president of the Crestline Village Water District Board of Directors.

But to succeed in environmental stewardship, the Sierra Club can only be successful with dedicated volunteers to help with all the requisite administrative tasks. The Sierra Club operates at four primary levels: National, State, Chapter and Group. Steve serves at the National level as a member of the Council of Club leaders representing the San Gorgonio Chapter. He serves at the State level through Sierra Club California (SCC) which is unique among the states in that it has 13 chapters. He currently serves on the SCC Executive Committee as the California/Nevada Regional Conservation Committee Liaison and on the Legislative Committee ex officio.

Steve also contributes to the San Gorgonio Chapter, serving as an elected officer of the Executive Committee, a member of the Chapter Conservation Committee and Chapter Litigation Committee as well as Chapter Webmaster. And locally in the San Bernardino Mountains he has continuously served the Mountains Group Executive Committee since 2005. He has been group program chair for the past 13 years and was responsible for setting up the group for online voting. In 2018 he will help facilitate online ballots for the San Gorgonio Chapter and most of the groups for this year’s elections.

Steve is one of those people who make those around him better. He does this by example, his kind words of encouragement and offers of help. He serves his adopted community and local Sierra Club Group, but as outlined above he has been the leader of the Sierra Club for years at regional, state and national levels. He is someone all can count on for help with tough issues.

**Ralph Salisbury Outings Award: John St. Clair**

John St. Clair, from the Los Serranos Group of the San Gorgonio Chapter is this year’s recipient of the Ralph Salisbury Outings Award. Presented to select outing leaders who contribute far more than outstanding leadership skills, John sets the bar. Besides submitting new outings every cycle, John has been the Los Serranos Group Outings Chair since 2013, only two years after completing training in 2011. Additionally, as a member of the chapter Leadership Training Course team, John conducts the Psychology of Leadership interactive class since 2016; as well, he has lead the field exercise for new leaders since 2014.

At the group level, John not only compiles the Los Serranos Outings Calendar every two months, he enters all the outings into the Sierra Club database (Campfire) as well – the only group outings chair to do so. He has been instrumental in recruiting, training and supporting new outings leaders through the entire process to become certified leaders. Under his leadership, both the Los Serranos Group outings program and group membership have grown.

John makes it a point to encourage and support his group’s outings leaders by attending their own hikes. He is always willing to help wherever needed, leading or sweeping hikes, training new leaders, mentoring others, always demonstrating “leave no trace” principles and being good stewards of our environment.

John St. Clair is a retired teacher, having taught 35 years in the Ontario-Montclair School District with his last 18 years at Vina Danks Middle School in Ontario. He is also a storyteller, interested in folk tales and children’s literature. He made his debut as a public storyteller at the Tellabration! 2003 concert and also produced the 2006 concert and many other concerts for Inland Valley Storytellers since.

His storytelling has been legendary in outings also. He’ll be willing and eager to tell a fascinating story on outings, especially around a campfire. On a trip to Peru to hike the Inca Trail to Machu Picchu, he was sharing a story one night after dinner and the local guide was enthralled with his story and dramatic effects. It was reported at one point during the story the guide’s eyes were bigger than saucers.

John has been married to Chris since 1971 and has three wonderful grown children. His favorite hobbies include storytelling at festivals, organic gardening, hiking in the San Gabriel Mountains as well as playing cards and board games when his whole family gets together during holidays.

** CARCAMP **

Another fun trip to the Black Rock Desert about 100 miles north of Reno. This will be a smaller group but expect several dozen people camped on the edge of the Playa. This is a busy weekend on the Playa as many Burning Man attendees use this weekend as a “shakedown cruise” for Burning Man. This may be a “second 4 of July” with big fireworks and bright lights. There’s usually a potluck or Dutch oven cookoff on Saturday. We’ll also visit hot springs and the Emigrant Trail! Bring food and water but we’ll have portapotties! LNT. Leader is very familiar with the area. Sign up after 6/24 with David, 775/843-6443

** HIKE **

Join me on this lovely 7-mile hike around Bluff Lake. We will stop by the historic Lodgepole Pine, then hike along Siberia Creek where there should be an abundance of wildflowers, and on to Gunsnight. We will have our snack/lunch break, taking in the views, before retracing our steps. This hike requires a carpool to the trailhead and an Adventure Pass to leave the cars at the Aspen Glen Picnic area. RATED: Moderate with little elevation gain. MEET: at the Aspen Glen Picnic area, 40105 Mill Creek Rd, Big Bear Lake, CA 92315. We will need vehicles able to drive the dirt road to the trailhead. BRING: 10 essentials, 2 liters of water, snack/lunch, sun protection, hiking boots, trekking poles and camera. RESERVATIONS: Contact hike leader Judy Atkinson (909) 289-1932, judy5723@gmail.com

July 3rd Chapter Program Features “Living Off the Land: How Local Indians Survived”
Presented by Walter Roth

Walter Roth will present a program on the topic Living Off the Land: How Local Indians Survived. Walter tells us, “Indians had a sustainable way of life. They lived here for thousands of years utilizing nothing but what could be found in nature. It took superb skill, keen observation, and an encyclopedic knowledge of everything in their environment. Learn a bit of what it took to survive.”

He will share tools, techniques, and native American survival knowledge with both a slide presentation and reproduction artifacts.

Walter tells us that he wants people to appreciate and respect the incredible skill and knowledge Indian people had. He goes on, “I also want to contrast their ability to live in harmony with their environment that could be sustained for thousands of years with our exploitative and unsustainable way of life. In addition, I want people to appreciate how much we have altered the environment over the last 200 years.”

This program is one that Walter, a member of the San Gorgonio Wilderness Association (SGWA), will present summer evenings at the Greyback Amphitheater in Barton Flats. Walter bases his presentation on lectures and field trips, UCR Extension courses on native American technologies, visits to museums, archeology coursework and several books on the subject. Walter tells us that the most influential book for this talk is Finding the Wild by M.Kat Anderson.

Walter is a retired elementary school teacher living in Riverside. He’s been a Sierra Club member since 1970, a volunteer with SGWA for 18 years, a Certified California Naturalist, and an Interpreter at the Barton Flats ranger station.

Transportation Issues

The congested Interstate 15 is the artery linking the communities within the Temecula Valley. The options for improvement have been discussed over several years, but many improvement projects are not even on the planning schedule.

The options for improvements are realignment of the State 79 roads to carry some of the interstate traffic, addition of express lanes to the Interstate 15, and construction of commuter electric light train linking San Diego to Ontario. Unfortunately, none of these options are on the planning board due to lack of financial resources and the lack of advocacy of the public interest.

Science Day, Teri Biancardi

Our first Science Day was a success! The event focused on watershed and water quality. The project involved Rancho Water, the Santa Margarita Ecological Reserve, and Riverside County Flood Control, and Water Conservation District. Several speakers addressed about 30 students. They evaluated water quality by testing pH, dissolved oxygen, and nitrates in Santa Margarita River.

The Flood Control agency sponsored the Science Day project; we anticipate the program to continue.

Political Committee, Elena Garcia

The Political Committee has been urging our members to inform themselves of the issues and candidates for the upcoming primary on June 5th. A list of the endorsed candidates and issues is listed at https://www.sierraclub.org/california/2018-endorsements.

Only the top two vote-getters face off in November. Please vote in this primary!

Tree City USA, Margaret Meyncke

The Arbor Day Foundation promotes planting and maintaining trees within our cities. The program, called Tree City USA, requires four steps to achieve certification:
1. A tree board;
2. A tree care ordinance;
3. A Community forestry program with a per capita budget of $2 per person; and
4. Arbor Day celebration and proclamation.

There are currently 3,409 cities that have achieved this distinction. Margaret recently completed this process along with the City of Temecula and using her affiliation with the Temecula Valley Woman’s Club.

Earth Day Celebration, Caren Hanson

The second Earth Day Celebration was on April 21st at the Vail Headquarters in Temecula CA. We shared this event with the Murrieta Arts Council (MAC) and Vail Headquarters, who donated the site. We had ten speakers presenting an array of conservation issues and music group. The vendors ranged from Organic Food Companies, Project Wildlife, Astronomy, Water Resources, Recycling, Solar Panels, Waste Resource, and conservation-oriented games for the kids.

Monthly Speaker Program, Pam Nelson

Diana Lindsay, a dedicated volunteer for the State Park and an author, addressed our general meeting in May. Her books are on local Native American culture, geology, trails and botanical topics. June is our last meeting until September 2018. A Fundraising Chairperson Would Really Help the San Gorgonio Chapter.

Do you have a background or interest in fundraising? Is the environment important to you? Would you feel good about raising money to protect the environment?

If your answer to each of these questions is YES – why aren’t you on the San Gorgonio Chapter Executive Committee?

Our Chapter works tirelessly to protect the environment in Riverside and San Bernardino counties; in the desert, in the mountains and in our cities as well. We are working to promote National Monuments, to protect our cities from unchallenged warehouse development, to help plan for a sustainable future for the Salton Sea, to promote clean energy legislation and to make sure that the environment has a voice in our part of California. We review development plans and EIRs to make sure that land use decisions consider added congestion, traffic, pollution and water impacts. We are ready to litigate if bad projects need stopping.

All of these tasks require many hours of volunteer time and effort. They also require many hours of paid staff time, costly expert opinions and reports, lawyer fees and court costs. Investments and grants that we receive, as well as our annual fund appeal income, are not enough to ensure against a shortage of funds in the foreseeable future. If we want to continue our involvement in current and future environmental protection we need more income.

The members of the Chapter Executive Committee (ExCom) are multi-talented, dedicated, relentless, knowledgeable and aging well. But none of us are very good or comfortable with asking people for money. And that is why having an “expert” on our ExCom would be so very helpful.

The ExCom currently has an open position, so if someone qualified wanted to step forward to join they could be appointed immediately and then added to the ballot for the election this fall.

If you find that your qualifications and willingness to help the Chapter with its fundraising are in alignment please contact Nominating Committee Chair Dave Barrie at barriemail@mac.com

Moreno Valley Group

By Ann Turner McKibben, Secretary

The Moreno Valley Group hosted a table at the Earth Night In the Garden event in Riverside on April 20. We handed out copies of the Palm & Pine and applied temporary tattoos on many future conservationists. Thank you to Christina Torres and Beatriz Vindiola for volunteering. It was a lovely afternoon and early evening in the Western Municipal Water District demonstration garden. Unfortunately, the garden property is being sold and this was expected to be the last year for this event.

The Moreno Valley Group will hold executive committee (excom) elections this fall. Two positions will be up for election and we would love to have at least four candidates on the ballot. If you would like to run and have been a member for over one year, please contact us at: movalleygroup@yahoo.com for more information about the nomination process. The nomination period runs through September 1.

Here is some updated information on projects we are following:

Moreno Valley Logistics Center (MVLC): This massive warehouse across the street from an established neighborhood reduces the minimum setback from 300 feet to just 100 feet. The Moreno Valley City Council approved this poorly planned project on April 17th. We have filed a lawsuit.

World Logistics Center (WLC): We prevailed in our California Environmental

November and make this a blowout! in SD 20. In Senate District 28, where Joy Silver was running against the incumbent, zero percent, Jeff Stone, she took 35% to Stone’s 56% and with our serious help, we could put her in a strong position to take that seat in November.

Moving on to the Assembly, it was telling that our Eloise Reyes, another 100 percent, has done such an incredible job of representing her 47th AD, that no one had the temerity to even file against her. She will continue to be a champion for us in Sacramento and will be honored by the Sierra Club California PAC for her leadership at an awards ceremony on August 25th. (More details on this event and how to get your tickets, soon). James Tillman, running in the 40th AD had a strong showing against Henry Nickel, garnering 40% to Nickel’s 47%. We can flip this seat, but we need you all to get up, get out, and help. Freddie Rodriguez, in AD52, won with 45% in a race that was tighter than expected and with much improved environmental record, we need to lend him serious support to keep this race from being even close. Eduardo Garcia in AD52 had a comfortable win with 57% of the vote. Previously endorsed Sabrina Cervantes lost 47% to 53% in AD60 and will face Bill Essayli in November. Jose Medina ran unopposed in AD61.

As of the publishing deadline for this edition of the Palm & Pine, Penny Newman was in a virtual tie for second place in the race for Riverside Supervisor District 2. If she makes it onto the November ballot, our help will be essential if we want to win this seat for one of our outstanding, life-long environmental leaders in the Inland Empire. Manny Perez won District 4 outright and in District 5, Altie Holcom finished out of the running with a VERY disappointing 11% of the vote.

Two seats were up for election for the San Bernardino Board of Supervisors and it looks like incumbents Janice Rutherford and Curt Hagman have been re-elected in Districts 2 and 4, respectively.

The only city elections where we made an endorsement was for Mayor in San Bernardino, where Danny Tillman finished out of the running with a very disappointing 14%.

Quality Act (CEQA) challenge before Judge Waters. Her ruling found the City’s Environmental Impact Report (EIR) deficient as to energy impacts, biological impacts, agricultural impacts, noise impacts and cumulative impacts. The judgment is pending and it is not known yet if any party will appeal. Our appeal related to the initiatives remains pending in the State Court of Appeals.

Villages of Lakeview (VOL): A coalition of environmental groups represented by Center for Biological Diversity has challenged the Riverside County Board of Supervisor’s approval of this 8,725-unit development on the south edge of the San Jacinto Wildlife area. A separate lawsuit was filed by Friends of the Northern San Jacinto Valley and a local residents group, Keep Nuevo Rural. The next scheduled action before the court is a status hearing on September 6, 2018.

Donations Needed: Your donations are essential to our litigation against the Villages of Lakeview and the World Logistics Center as well as other projects in our area. Make checks payable to “Sierra Club” with a notation for WLC and/or VOL or other. Please send to: Sierra Club—Moreno Valley Group, P.O. Box 1325, Moreno Valley, CA 92556-1325. Thank you to all who have taken time to donate!

Riverside County General Plan Update (GPA 960): Our concerns include greenhouse gases, agricultural lands, the San Jacinto Wildlife Area’s at-risk species and the sprawl-promoting nature of the plan. Portions of the suit related to greenhouse gases and the Housing Element suit have been settled based on County commitments to strengthen their Climate Action Plan. Despite the very excellent arguments by our attorneys at the court hearing, Judge Waters ruled in the County’s favor.

Mid County Parkway (MCP): The six-lane MCP between the cities of San Jacinto and Perris would facilitate projects like the Villages of Lakeview. Settlement talks continue as we wait for our federal court appeal to be heard.

State Route 60 Truck Lanes (Badlands): Our California Environmental Quality Act (CEQA) challenge to Caltrans’ proposed mitigated negative declaration (MND) is pending in Riverside County Superior Court and settlement talks continue.

Banning to Cabazon Bypass Road: Riverside County proposes a parallel route south of I-10 between Banning and Cabazon. The proposed improvements may significantly impact important biological resources and may induce growth along the alignment. The comment period for the Draft EIR has closed and we now await release of the Final EIR.

San Gorgonio Crossings: This warehouse project at the gateway to rural Cherry Valley was approved by the Board of Supervisors in October 2017. Lawsuits have been filed by Sierra Club and local Cherry Valley citizens groups. The next scheduled activity is a June 21st status hearing.

Lake Perris State Recreation Area: The 2018 Limited Use Golden Bear Pass ($20.00) is good for the entire year for most state parks for those 62 years or older. It can be purchased at Lake Perris and is good for everyone in your car. Other special passes are also available. Island Hopping in Channel Islands National Park in 2018

July 15-17; August 19-21; September 23-25; October 21-23

Join us for a 3-day, 3-island, live-aboard tour of the enchanting Channel Islands. Hike wild, windswept trails bordered by blazing wildflowers. Kayak rugged coastlines, Marvel at pristine waters teeming with frolicking seals and sea lions. Train your binoculars on unusual sea and land birds—and an occasional whale. Watch for the highly endangered island fox. Look for reminders of the Chumash people who lived on these islands for thousands of years. Or, just relax at sea. All cruises depart from Santa Barbara. The cost, $675, includes an assigned bunk and all meals, snacks, and beverages. A ranger/naturalist assigned by the national park will travel with us to help lead hikes, point out items of interest and give evening programs. Kayaking will be overseen by our concessionaire; all hikes will be on trails, class 1 terrain. This trip is a supporter to fund the Sierra Club political program in California. To reserve space send a $100 deposit, written to California Sierr Club PAC to Joan Jones Holtz, 11126 The Wye St., El Monte, CA 91732.

Chad Hanson, our speaker for this chapter meeting, was elected this year to a three-year term on the Sierra Club national Board of Directors, receiving the highest number of votes among the five who were elected. He has a PhD in Ecology from UC Davis and is a research ecologist with the John Muir Project, based in Big Bear City. He previously served two terms on the Sierra Club Board from 1997 to 2003.

Chad’s presentation will focus on three main areas. First, in his words, “The surprising and seemingly counter-intuitive world of forest fires, including the many wildlife species that depend upon ‘snag forest habitat’ created by natural processes like fire, as well as natural postfire forest regeneration.”

Next, he will talk about the key role of forest protection in climate change mitigation. Finally, he will discuss how communities can safely coexist with wildland fires, and why current fire management policies need to change, focusing on protecting communities rather than on backcountry fire suppression and logging projects.

Chad took the accompanying photographs west of Yosemite in the area burned in the Rim Fire. He says, “They show the abundant natural forest regeneration that is occurring even in the large high intensity fire patches.”

Banning Plastic Straws, one of the biggest sources of plastic pollution found in ocean clean-ups, is gaining momentum statewide. Like the plastic bag before it, this is the next easily replaceable single use plastic to be taken off the table.

Hot Topic – “The Ecological Importance of Mixed Intensity Fires” is the Subject of Chapter Program on August 7th
